

Application for use of off-farm plant propagation material

Project name:

Project No.:

A) Propagation/Starting material

Crop

Variety

Quantity (kg)

Probable date of sowing /planting

Field number; Area (Ha)

Supplier (name, full address)

B) Reasons for request

1. Were any treatments applied on the propagation material?

Yes / No

If yes, please describe the details of the treatment, including what treatment was applied and at which stage during the production of the material the treatment is applied!

2. Organic starting material for the crop not available

Yes / No

Please describe your search (potential suppliers, dates, search methods).

You are expected to contact at a minimum of three potential sources or explain why this type of search is not possible!

Please explain your answer using specific details, provide evidence and attach correspondence (e.g. emails, phone logs).

3. Organic starting material is available, but varieties not suitable

Yes / No

Explanation (Why the available organic varieties are not suitable?)

4. No supplier is able to deliver the starting material before sowing or planting

Yes / No

Explanation (When was ordered? Which suppliers were asked?)

5. The non-organic propagation material is used in research, test in small-scale field trials or for variety conservation purposes

Yes / No

Details:
Other:
Please attach variety description and other relevant documents (label, certificate, GMO free statement, etc...) Attachement :
I declare that this form is filled in truthfully and that I will notify GSCI in due time if any changes occur in the issues described in this form. Representative of client: Signature & Date

For GSCI OFFICE ONLY!!!

Request approved

Request not approved

Reason:

Conditions:

Shall submit before sowing of the crop:

Copy of transaction certificate if organic seed materials are being outsourced

Copy of bills for the material purchased

Copy of sample test results, if starting material is analysed.

....

The approval is valid till (dd/mm/yyyy):

Signature & Date

PLEASE READ BEFORE FILLING UP THE FORM:

1. To obtain a derogation to use nonorganic starting material please fill out this form and send to GSCI before purchasing the starting material.
2. Use of non-organic starting material is only allowed, when GSCI gives its approval on this form.
3. Please make sure that you send this form in reasonable time to GSCI.
4. The derogation must be granted by GSCI before the sowing/planting of the crop.
5. The derogation can be granted only for one season at a time.
6. Derogation can also be given if the land is in conversion, after careful consideration of how many years are still to be completed from the conversion of the land.
7. Sowing/planting non-organic starting material without having an approved derogation may result in decertification of the crop involved.
